

## Write in Style – powered by gerlingo

Thematic predictive text and autocomplete always showing the next two words while you type

How do I spell a difficult word? What should I write next? How do I say this in a different language?

**Write in Style** has the answers!

- It predicts the next two words while you write
- It shows the prediction in gray like in a search engine
- It helps to spell difficult expressions

**With Write in Style, you can easily...**

...write in English  
...escribes en español  
...auf Deutsch schreiben

**Or pick a theme like...**

...the president addressing the American people  
...Jane Austen's style of love and passion  
... E. A. Poe's descriptions of horrifying encounters

As you go along, the suggestions are updated constantly, so you always know what to write next and how to spell it. And you can select the suggestions with the ENTER key and scroll through alternative suggestions

The best thing is that you can decide where the suggestions come from. You can select out of a variety of topics, styles and languages to get suggestions fitting your needs. You can for example select political speech or literary themes like Jane Austen and Shakespearian language. Or you can use Write in Style to write your Spanish homework essay fast and free of errors.

Available languages: English, German, French, Spanish, Catalan, Danish

Available topics: J. Austen, W. Shakespeare, Political Speech, F. Nietzsche, F. Kafka, A. Dumas

Write in Style has a context sensitive algorithm to optimize your experience as you go. It was developed by Wolfgang Barth and Paul Steinhilber and is available for the iPhone and iPad on iOS7 and up.

If you have any questions or suggestions I would be happy to hear from you.
